

THREADLINE PATTERNS - PRINTER CALIBRATION TEST SHEET

Print at 100% / Actual Size. Do NOT select "Fit to Printable Area", "Shrink Oversized Pages", or "Scale".
Verify test boxes with a rigid ruler before cutting or assembling full pattern tiles.

Pattern Printing & Tile Verification Guide:

1. Paper Format: Use matching sheet size (A4: 210 x 297 mm, US Letter: 8.5 x 11 in).
2. Page Scaling: Always set to "Custom Scale: 100%" or "Actual Size" in Adobe Acrobat.
3. Measure First: If the 50 mm box measures 48 mm, your printer shrank the output by 4%.
4. Single-Sided Only: Never use duplex or automatic double-sided printing for patterns.
5. Border Trimming: Trim along right and bottom frame lines where scissors are indicated.
6. Tile Alignment: Align diamond registration marks (1A to 1B) and butt flush. Tape seams.

Unit Reference Note: 2.0 inches = 50.8 mm. A 50 mm square and 2 in square are distinct.
